# Why WeRateDogs?

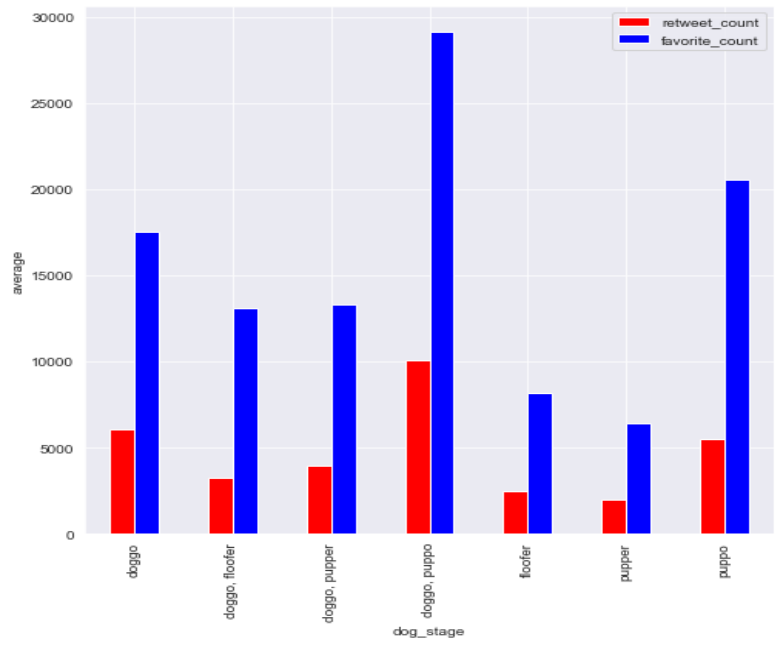
WeRateDogs is a Twitter account that rates people's dogs with a humorous comment about the dog.

**These** ratings almost always have a denominator of 10. The numerators, though? Almost always greater than 10. 11/10, 12/10, 13/10, etc. Why? Because “They are good dog BRENT”

WeRateDogs has over 4 million followers and has received international media coverage.

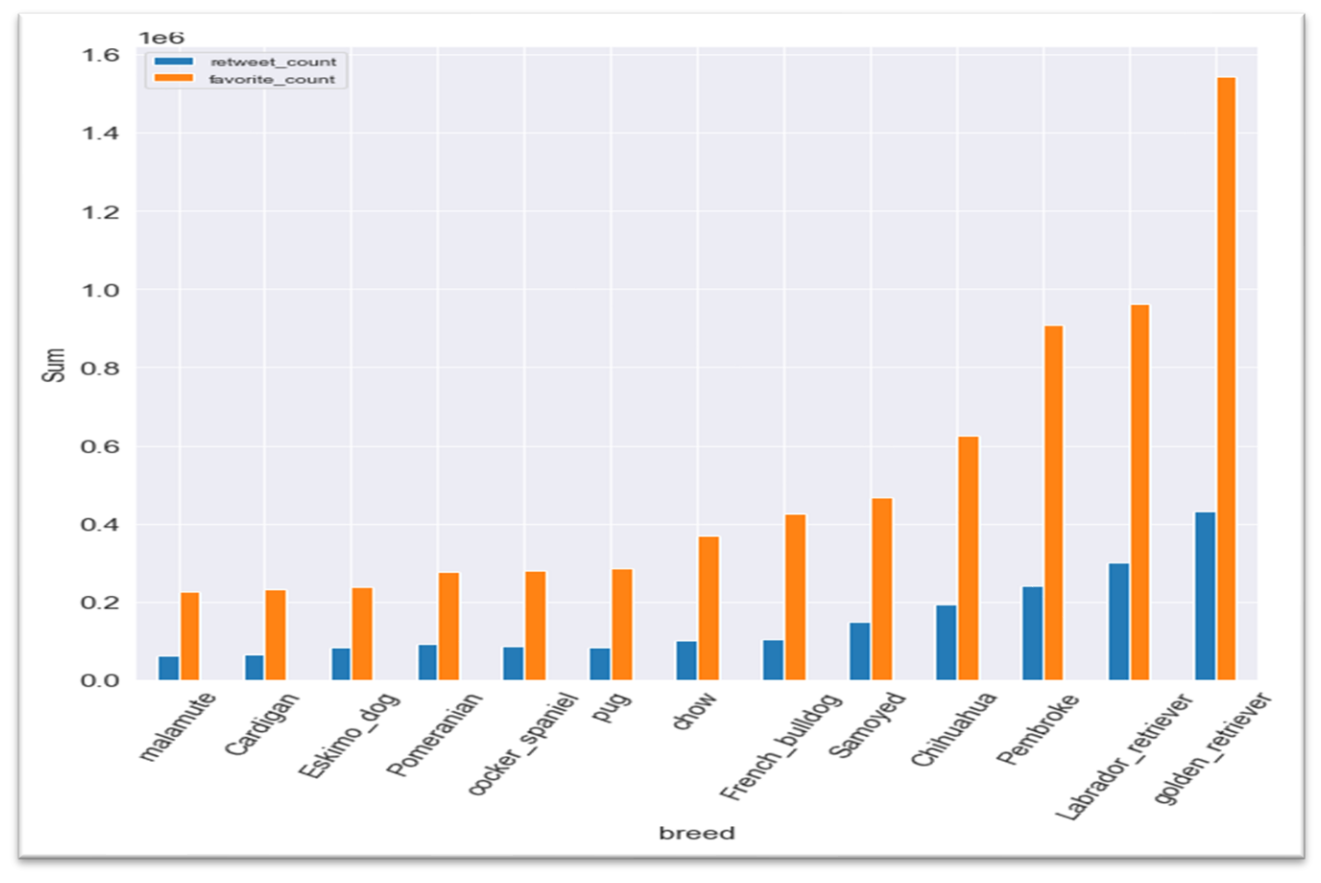
**Here** we gathering information from many sources to analysis data about the dogs’ breeds and dogs’ stages (doggo, doggo-floofer, doggo-pupper, doggo-puppo, floofer, pupper puppo) and the interactions with dogs’ ratings, retweets count and favorites count.

**This** plot shows the relation between average retweet count and average favorite count with four dog stages.

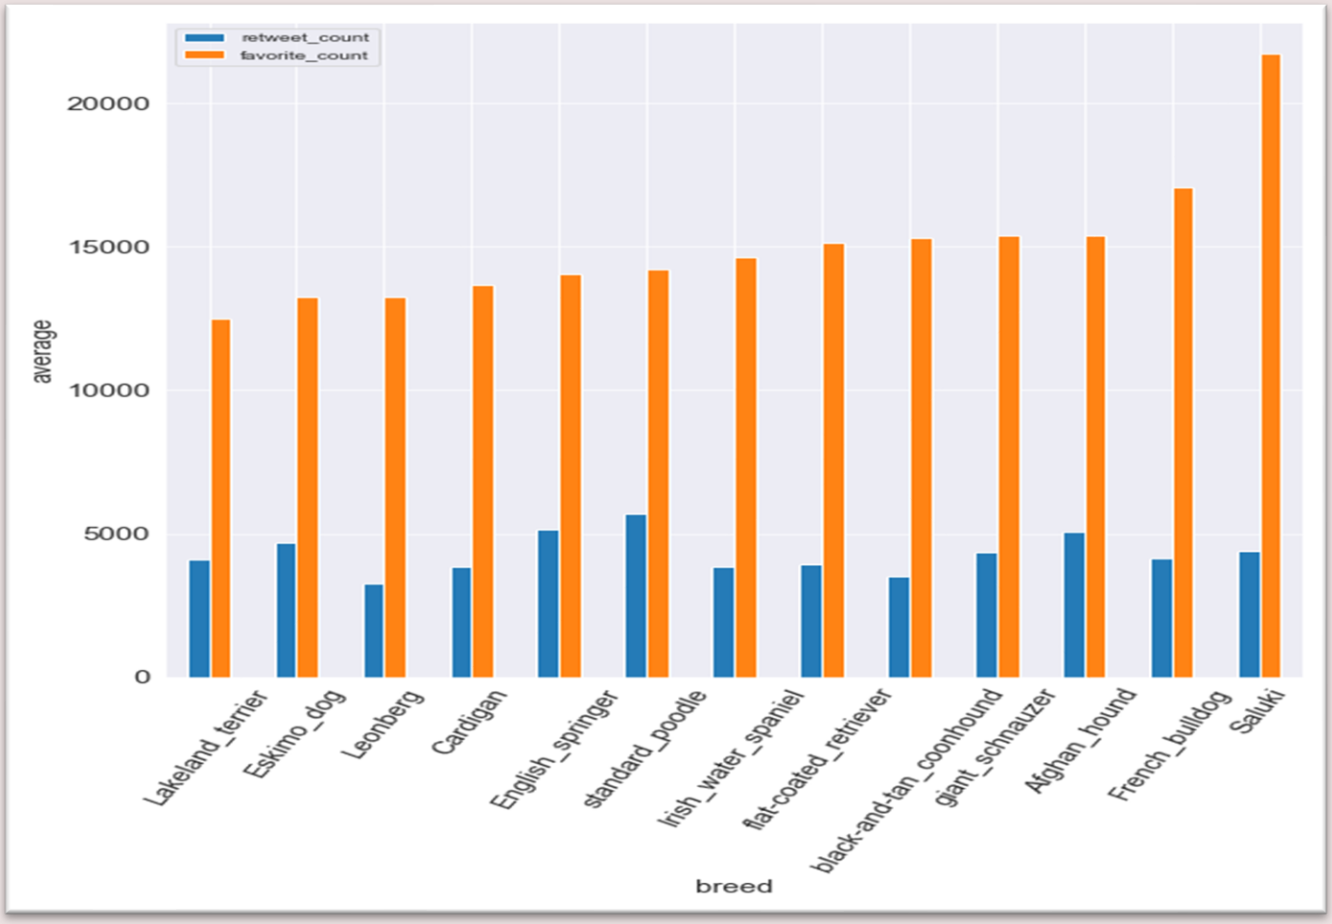


**This** obvious that people like and interact more with Puppo and doggo stages.

**This** plot shows relation between sum of retweet count and favorite count for dog breeds (highest values), The **Golden Retriever** breed and **Labrador Retriever breed** have the highest sum for retweet count and favorite count.

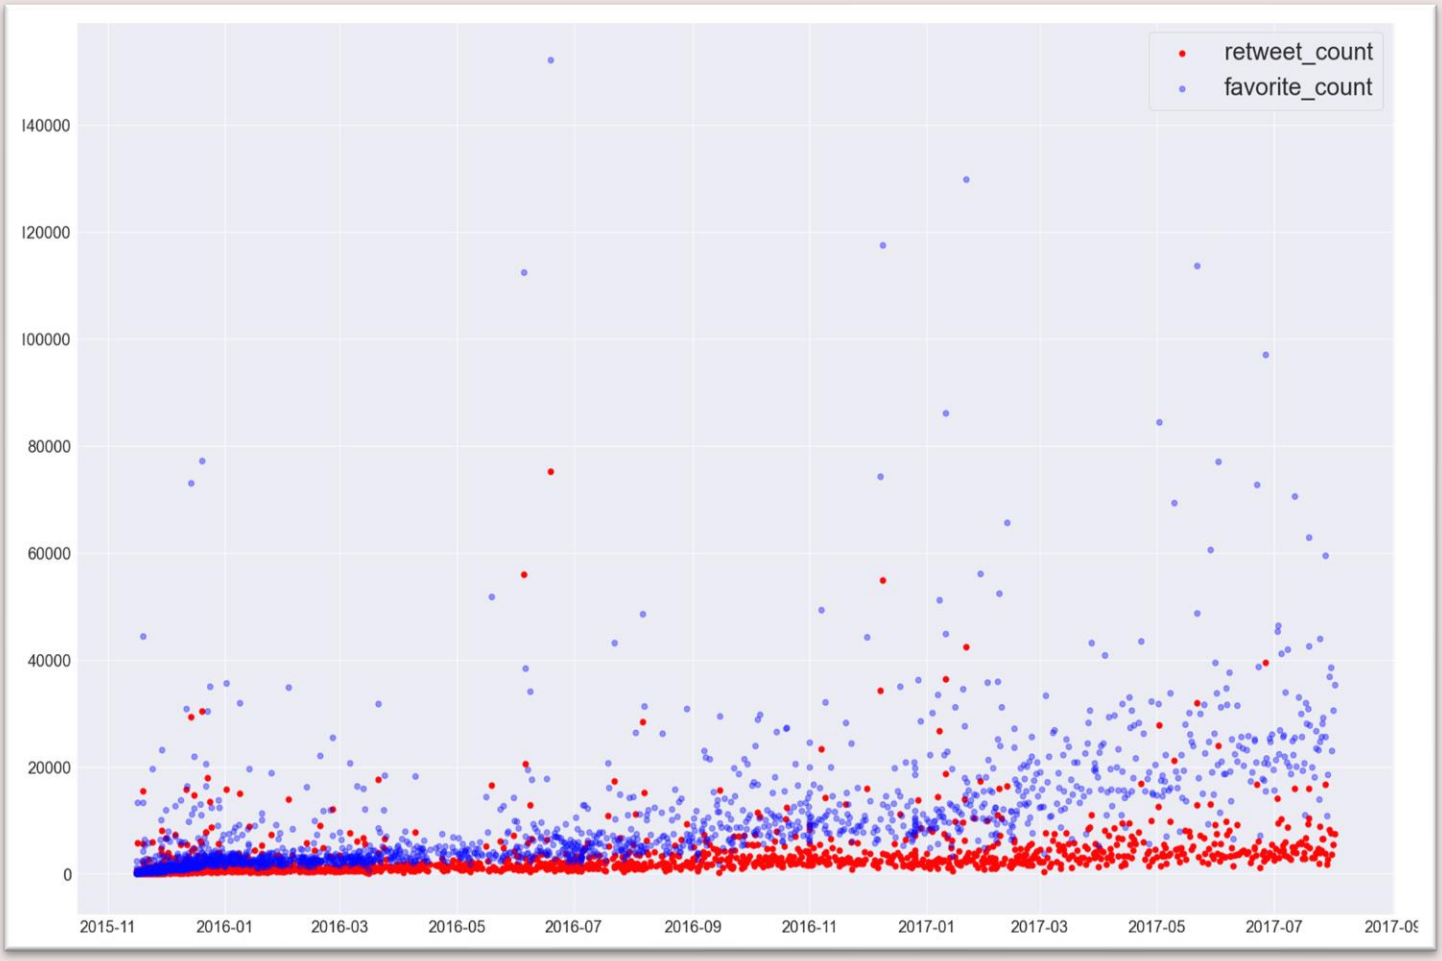


**Let's** see the relation between dog breeds and the average retweet count and average favorite count, is the list of breeds will be the same as in above plot?



**Yeah,** the list of dogs' breeds almost completely changed, the **Saluki breed** and the **French Bulldog** have the higher average**,** that was Tricky.

**This** plot shows the relation between retweet count and favorite count with time from November 2015, to August 2017



This obvious that the interacting with this twitter account with time, this increasing is represented by upward trend by the time especially with increasing in favorite count.
